High Educational Cultural Experience

“Agòn path”

Olympia_Athens_Delphi
Corinth_Nemea_Argos

Acquiring the memory of the past to orient yourself in the present and plan for the future.

"Retracing in the footsteps of those who preceded us is essential".

EDUCATIONAL PATH_INTRO_GOALS_PROGRAM:

Agòn is a multidisciplinary project dedicated to European high school students with a linguistic, classical, humanistic, artistic, scientific, dance, musical, sporting and touristic orientation.

The international educational entertainment program, lasting 5/6 days, is a historical-artistic path closely linked to literature, poetry, philosophy, theater, music, sculpture, art in all its forms and to the sport of ancient Greece.

The project, through the story (λόγος) and the artworks of our predecessors who still influence our modus vivendi et operandi, intends to recreate a cultural network between the cities that once hosted artistic and sports games and to highlight the values (of relationship, participation, friendship, loyalty, solidarity, commitment, respect, courage, peace and equality) through the reproduction of artistic representations and agorà in the places of worship, as was the case in ancient times.

The event is an authentic and tangible "experiential journey".

You will meet: actors, cultural guides, academic experts, storytellers, artists, entertainers, musicians and students from other countries, to share emotions, opinions and strengthen the identity of the European community and you will participate in artistic experiences (workshops) to develop concrete skills.

You will embark on a journey into the past, from the humanities to the art of ancient Greek culture, through readings, interpretations and sounds, giving shape to the imagination.

During the tour you will be guided in the most suggestive archaeological sites of Ancient Greece. Here, you will breathe the beginning of our history. The energy of those places tells the events of the past and the beauty of our origins.

Together we will explore new horizons to immerse our mind and body in a training course that focuses on the person and the relationship, the starting point for gaining greater self-esteem, motivation and enthusiasm in learning.

The project intends to promote the following aims and objectives:

- To strengthen the identity of one's school community through meetings, discussions and the relationships with others.
- To provide useful tools for future orientation in the management and organization of cultural events.
- To ensure the participation of students in the social and cultural life of the school.
- To encourage students to better understand their talents and abilities.

Educational goals

- To spread ethical values such as the centrality of the person, integration, responsibility, inclusion, quality, in a view to active participation.
- To acquire behaviors based on the appreciation of differences, collaboration and solidarity.
- To create meaningful and motivating experiences for students, opportunities for experimentation.
- To know how to interact in democratic ways.
- To know how to act responsibly and consciously.

Didactic objectives

- To develop a knowledge process: knowing how to understand, know how to apply, know how to synthesize, know how to analyze, how to evaluate.
- To promote the propensity to creativity and Problem Solving.
- To train students to encourage teamwork, in which tasks and responsibilities are identified and divided.

Student's Program:

Day 1: Welcome - Presentation of the Festival activities and artistic performance.

Day 2: Along the path of Zeus - SPORT AGON

-Guided visit to the archaeological area of **Olympia**. Temple of Zeus, Temple of Hera, ancient Olympic stadium, archaeological museum, the gymnasium, philippeion and the Bouleuterion.
