"Acquiring the memory of the past to orient yourself in the present and plan for the future.
Retracing in the footsteps of those who preceded us is essential".

26th - 29th April 2022

DELPHI_CORINTH_OLYMPIA_ATHENS

The The project Agón aims to promote and enhance the human and cultural heritage linking theory and practice, recreating an historical path, a cultural network between the cities (Olympia, Delphi, Corinth, Nemea, Argos, Athens) which were hosting the artistic and sporting games in the ancient times.

Each one of the cities which hosted the games had a strong connection with the mythological divinities, with literature, poetry, philosophy, sport and art in general.

Our aim is to enlighten the values of the games (fair play, participation, friendship, loyalty, solidarity, commitment, respect, courage, peace, equality and internationalism) through the live reproduction of artistic and sporting performances as it used to happen during the ancient times.

You will be leaded by cultural guides and you will meet actors, poets, musicians, dancers, through a unique experiential historical artistic path, retracing in the footsteps of the intellectuals which preceded us, such as: Pindar, Pausanias, Herodotus, Homer, Plutarch, Hesiod, Aeschylus, Sophocles, Aristotle, and others..
